

ADVANTAGES

- Exceptional control of odors from cannabis and other malodorous sources
- Able to be installed in any manufacturer's loose-fill filters
- ISO 10121-1:2014 tested media
- The most versatile molecular media available in a range of mesh sizes
- Ideal for low to medium molecular weight and higher volatility contaminants
- Excellent adsorption for criteria air pollutants: ozone, nitrogen dioxide, and sulfur dioxide.

Application	Best media for all-purpose odor control. Ideal for low and medium molecular weight, higher volatility contaminants. It can be used in shallow, moderate and deep bed configurations.
Media	Activated Carbon
Max Temperature (°C)	40
Min Temperature (°C)	0
Relative Humidity max	70%
Installation Options	All loose-fill molecular air filters.
